WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in any thing other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc. Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

SEGA DREAMCAST VIDEO GAME USE

This GD-ROM can only be used with the Sega Dreamcast video game system. Do not attempt to play this GD-ROM on any other CD player; doing so may damage the headphones and/or speakers. This game is licensed for home play on the Sega Dreamcast video game system only. Unauthorized copying, reproduction, rental, or public performance of this game is a violation of applicable laws. The characters, locales, vehicles, sponsors, teams, logos, uniforms and events portrayed in this game are purely fictional. Any similarity to other persons, living or dead, is purely coincidental.

- The contents of Homepage will be updated periodically. Please also note that the contents may totally be renewed.
- The saved game file, created with a Dreamcast console with which the user registration has not been completed, cannot be uploaded for user ranking. If you have not completed the user registration, please delete all DAYTONA USA® save files, and start over again from the beginning.
- If you are going to participate in Rankings, please also read the DAYTONA USA® Homepage as well.
- The uploading of data is possible from any VMU that contains a DAYTONA USA® save file.

DAYTONA KEY FILE

To race online you must acquire a Key File. Follow the steps related to get a Key File.

- From the Homepage, select Register for Net Battle.
- On the registration page enter your Dreamcast Username and Password. If you do not have a Dreamcast Username and Password, select Create.
- After you have entered the correct Username and Password you can then download a Key File to your VMU (4 blocks required).
- Pull the left trigger on your Dreamcast controller and select "Go to Game". Now you are ready for online competition!

COURSE INFORMATION

Three Seven Speedway

This course is located in the gambling metropolis, Las Segas. It's very bright and aimed at the beginner.

Dinosaur Canyon

This course winds its way through a deep canyon. The course takes its name from a giant dinosaur fossil. An intermediate course

Sea-Side Street Galaxy

Starting from Starlight Bridge, this is the longest course of the series. With a lot of tight corners, this course requires a lot of technique.

Desert City

This winding course surrounds a desert oasis. The balloons have come out to greet the drivers.

National Park Speedway

Race in the largest wilderness park in the world. This course offers a mix of curves and straightaways.

Circuit Race

Desert Oval
Built in a desert once said to be the fastest. This is an oval course so no need for brakes here, go full throttle and get in the slipstream.

Rin Rin Rink

Dreamcast Original

A course built on a swamp, it consists of a series of curves, then a long straightaway. You will need quick acceleration for this course.

Mermaid Lake

Dreamcast Original

A figure 8 course. The most difficult part of this course is the final corner.

CAR INFORMATION

HORNET

This car has a balance between grip, acceleration and maximum speed. This car is suitable for all courses.

GRASSHOPPER

This car has the best grip of all the cars, but the level of acceleration and maximum speed are poor. You are able to control the car easily while driving.

FALCON

A well rounded car with a high level of grip. This car is very easy to handle.

LIGHTNING

This car has a high level of acceleration and maximum speed but a low level of grip. You can't be beaten on the straights, but it's difficult to control the car around corners.
